## NOTES

## Vendors

Ovation is partnering with the following vendors, all of which have done a great job of giving you the information that you will need for specifying their fine products, either on their websites or in their catalogs. Ovation will only list part numbers and woods available as standard by the vendor. Please note that there are both standard/stock and premium/non-stock wood offerings. Only the standard selections will be in OPTS; premium wood selections will require a quote from customer service.

In Ovation's catalog, most but not all of these offerings are listed. If it's not listed in OPTS, please contact customer service for a quote.
